What are the Key Ingredients?

MIC: As a mixture of amino acids and vitamins, that act as a lipotropic agent to speed up the breakdown of fat during metabolic processes. MIC also supports the liver's detoxification processes, sleep quality, hair health, mood stability, and more.

Vitamin B12: Cobalamin Supports increased energy levels by promoting red blood cell production (helps cells receive more oxygen) and supplying DNA and amino acids with the energy needed for essential functions.

L-Carnitine: L-Carnitine promotes the growth of lean muscle and minimizes oxidative stress for increased strength and performance in workouts. This powerful amino acids also protects against muscle loss and aids in collagen production.
