

NAD+ Shoot **Booster**

Get started on your wellness journey with Victoria Aesthetic Clinic in Seychelles and discover how NAD+ therapy can enhance your health and vitality today!

NAD + promotes cell regeneration and can assist clients in dealing with joint and muscle pain, improve sleep quality, enhance mental clarity, and boost energy levels. It's the perfect alternative to an NAD+ infusion when you're short on time. Learn more about NAD+ and its benefits here!

Why Choose Our Muscle Booster?

Clients can choose to receive this as an injection or as an IV add-on.

Since its introduction, our NAD+ Therapy has been highly sought after by individuals experiencing brain fog, low energy, poor concentration, mood disorders, and more. We're delighted that many of our clients have effectively supported their well-being with this treatment!

Our NAD+ Services:

NAD+ Booster Shot Injection (SC): 60mg for 100 SCR
NAD+ Drip (IV) 250mg: (approx. 30-45 mins): **250 SCR**
NAD+ Drip (IV) 500mg: (approx. 90-120 mins): **400 SCR**
