

## Super B Booster

[Biotin + Glutathione]

Need a turbo boost of energy? Our Super B Booster provides an instant surge of vitality, mental clarity, and helps alleviate symptoms of anxiety and depression.

Elevate your energy levels, enhance hormone production, and fortify your immune defenses with this powerful blend of B vitamins. This specially formulated combination of B-Complex and Vitamin B12 is designed to recharge your entire system, converting food into fuel and significantly enhancing your cellular energy levels.

### Key Ingredients:

**Vitamin B1 (Thiamine):** Regulates enzymatic reactions for healthy energy levels.

**Vitamin B2 (Riboflavin):** Necessary for the growth, development, and maintenance of cells.

**Vitamin B3 (Niacin):** Supports the metabolism of proteins and carbohydrates for cellular energy and helps produce stress-relieving hormones.

**Vitamin B5 (Pantothenic Acid):** Vital for blood cell production and energy creation.

**Vitamin B6 (Pyridoxine):** Essential for melatonin production and achieving restful sleep.

**Vitamin B9 (Folic Acid):** Positive effects on fetal health and essential for improving DNA repair, supporting cellular health, and longevity.

**Vitamin B12 (Cobalamin)** Boosts energy levels by enhancing red blood cell production, helping cells receive more oxygen, and supplying DNA and amino acids with the necessary energy for vital functions.
